

OGSC Accredited **Safety Health and Environment** **Supervisor Safety Certification**

Delivery Method : Face to face

Code : SHESSC

Duration : 2 Days

"By bringing together onshore and offshore leaders, we can make our Oil and Gas Community safe."

Oil & Gas Safety Council (OGSC) was first initiated in early 2011 and officially incorporated in late 2012 as a non-profit, member driven organisation with the aim to provide a platform for Organizations and Individuals in the Oil and Gas industry both offshore and onshore to have access to reports, regulations, career options in the industry free of cost.

OGSC is a third-party certification body providing OGSC courses. Their standards are based on combined experience of over 18 years in Oil & Gas industry, both upstream and downstream.

The course being offered by Sharma Management provides participants with the ability to recognize evaluate and eliminate hazards in oil & gas facilities. It provides supervisory skills to carry out works in the oil & gas facilities.

Objectives

By the time, the training has been concluded, the participants will be able to learn:

- ❖ *Compliance with workplace safety and health legislations, guidelines and code of practice*
- ❖ *Identification of hazards and control measures*
- ❖ *Compliance with safety and health management system*
- ❖ *Implementation of permit to work system*
- ❖ *Conducting safety and health inspection*
- ❖ *Conducting incident investigation*

Upon completion of this course participants (Supervisors & Engineers) will have knowledge of their responsibilities as well as the skills required to: (i) execute hazard identification and risk assessments that comply with the HSE management systems, (ii) coordinate a permit to work system, and (iii) carry out safety inspections and investigations.

OGSC

OGSC PROFESSIONAL **CERTIFICATION** **COURSE**

Audience Profile

This course is relevant for all Supervisors & Engineers working onshore or offshore.

Session Date

10 – 11 October 2016

OGSC

By bringing together onshore and offshore leaders, we can make our Oil and Gas community safe.
