Project Management

Delivery Method:
Live Instructor
Based Online Session

HRD CORP CLAIMABLE · HRDCORP CLAIMABLE · HRDCORP CLAIMABLE · HRDCORP CLAIMABLE

Why Us?

This Basic Agile Project Management course is designed to develop a better awareness of what basic aspects related to agile project management entails.

It will introduce key definitions to familiarise participants with terminology associated with the concept as well as provide clarity on what it takes to undertaken projects using an adaptive approach.

- o The 2 day virtual session shall be led by an experienced training instructor who is an Agile Certified Practitioner

- o The participants will be exposed to key concepts relating to agile project management

- o The session will be highly interactive as it will involve the usage of a collaborative learning platform called **Miro** that will enable virtual, group-based discussions to be done remotely

- o All session are to be recorded and shared with the participants post session

- o Session to be conducted via Zoom platform

He is the Senior Regional Consultant for Denison Consulting and is affiliated with MDI Management Development GmbH. He specializes in the areas of project management and knowledge management.

Project Management Based Training
He has taught Project Management as a course in the Heriot Watt University MBA programs, and has guided over 300 participants in obtaining their PMP certification. He also conducts non-certification based project management training courses such as project planning, basic project management, complex project management, stakeholder management and risk management for organizations such as Western Digital, the Employee's Provident Fund (EPF) and the Public Works Department (JKR).

Project Management Based Consulting
Dr. Rumesh is presently involved in undertaking post project reviews, performance improvement and competency assessment in various projects and as well as organizational culture profiling for senior managers in different organizations.

He has assisted many organizations in developing project management tools and customised methodologies. He also specializes in providing consulting services such as organizational diagnostic assessments, competency assessment, cultural and leadership profiling as well as continual productivity improvement.

Testimonials from Students

What they say about us:

"A very useful course."

....

"Very well organised and conducted in a very effective manner considering it being virtual."

....

"Tutorial to Miro beforehand would be useful!"

....

"Facilitator managed time well. Any clarifications were provided promptly by course organizers."

....

"Given the virtual environment, the trainer really excelled kept the group engaged while clearly and concisely teaching the content."

....

"Miro was well designed! Certain group discussions require more time; especially the ones requiring two frames".
